1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with W. Allen Powell on 29 May 2007.

The application has been amended as follows:

Claim 4 was amended as follows:

4. The method of claim 1 wherein the first wavelength is in the range between approximately [900] 1500 and 1850 nm.

Claim 16 was amended as follows:

16. The apparatus of claim 15 wherein said light emission optics are configured to deliver electromagnetic energy at a wavelength in the range between approximately [900] 1500 and 1850 nm.

2. The following is an examiner's statement of reasons for allowance: By reciting a range between approximately 900 and 1850 nm, claims 4 and 16 as previously presented implied that the 910 or 940 nm emitters of Diab '850 could be considered to meet the requirements of the first wavelength where water is a dominant absorber. However, Applicant's arguments submitted with the amendment filed 9 March 2007, indicate that this is not a proper interpretation of the limitations of claims 1 and 14 and that these wavelengths are not in a range where water is a dominant absorber, and thus

Art Unit: 3768

Diab '850 does not meet the limitations of claims 1 and 14, nor is there a suggestion to modify Diab '850 to make measurements at these wavelengths. Applicant agreed to amend claims 4 and 16 to claim a first wavelength in a range between 1500 and 1850 nm, consistent with one embodiment disclosed on page 12 (see paragraph [0048]) of the specification, to remove the implication that the 910 and 940 nm wavelengths of Diab '850 would meet the requirement of having a first wavelength where water is a dominant absorber.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric F. Winakur whose telephone number is 571/272-4736. The examiner can normally be reached on M-Th, 7:30-5; alternate Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eleni Mantis-Mercader can be reached on 571/272-4740. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
